

# **Week 10 Final Project Reflection**

## **Q1. Team Project Reflection -- Instructions**

Write a reflection on your experience with the team project. It may be helpful to reread your weekly reflections and team sprint reports, to help recall the progress and challenges over the course of the term.

**\*\*This is an individual assignment. Each student should submit their own reflection.\*\***

## **Q2. Project Description**

What was your project? Share a brief description and a link to the github repository.

## **Q3. Planning**

What was the initial vision for the project? How did the final project differ from what you had planned?

## **Q4. Challenges**

What was the hardest thing about the project? What did you struggle with?

## **Q5. Personal Accomplishments**

What did you accomplish in the project, personally? What are you most proud of?

## **Q6. Learning**

**Q6.1. What did you learn about software?**

**Q6.2. What did you learn about teamwork and project management?**

## **Q7. Team**

**Q7.1. What was something you learned from your teammates?**

**Q7.2. What's one piece of feedback you have for your teammates?**

**Q8. Self rating**

Rate your own level of contribution to the projectExplain your answer.

**Q9. Peer rating**

Rate your teammates contribution to the project.

For each of your teammates, enter their name and whether their overall project contribution was Strong, Appropriate, Weak, or None. If you like, include explanations for your score.

**Q10. Notes or feedback**

Any other notes or feedback?

**Q11. Overall Project Contribution Grade**

No Contribution -10  
Appropriate Contribution -4.5  
Weak Contribution -8
